Whether you are an exporting or importing business, you should choose our web portal dedicated to processing your international trade transactions.

BASIC PRINCIPLES

It is a secure web portal that allows you to **MANAGE** your international trade transactions **ONLINE**. This interactive portal offers several modules:

- documentary credit (import and/or export),
- documentary remittance (import and/or export)
- international guarantees

It facilitates the digitisation of the processing of your trade finance transactions (openings, modifications, etc.), and eases management (traced models, deadline management) in a secure environment (authorised users).

YOUR NEEDS

You are an importing and/or exporting company that carries out repeated international trade transactions and would like to digitise your processing.

BENEFITS

- Efficiency and time saved: easy implementation, speedy entry thanks to the use of customised models, instant information exchange.
- Monitoring of your transactions in real time: calendar with key transaction dates, email alerts to anticipate and monitor transactions (notifications of issuances, modifications, payments, etc.), customisable reporting.
- Reinforced security: Our e-Banking portal is based on advanced security protocols. The signing authority of your colleagues (submission, validation) are configured to meet your business's internal authorisations. The confidentiality of your transactions and the integrity of your data are insured.
