## INFORMATION CENTRALISATION

To enable your business to centralise its account summaries and certain operations in France and internationally, you should choose our “Information Centralisation” solution.

---

---

### BASIC PRINCIPLES

This automated service allows you daily access to all of the statements for your open accounts in France or internationally.

---

---

### YOUR NEEDS

**You are a business operating internationally with accounts in France and abroad and you would like to better monitor your cash flow.**

---

---

### BENEFITS

**Win time:** one single connection for consulting your account summaries, regardless of geographical location.

**Comprehensive and speedy information:** thanks to better understanding of the status of all your accounts. And thanks to the regular monitoring of their activity, you will have all you need to manage your cash flow.
